THE SAUDI NAJDI REGIME PLANNING TO SELL ITS KUFR WARES TO MUSLIMS IN SOUTH AFRICA

THE KAAFIROON

“Those who do not govern according to that (Law) which Allah has revealed, verily they are the KAAFIROON.”
(Qur’aan)

With mounting concern and opposition in the Muslim World to the kufrization of the Holy Land of Hijaz, and the dismantling of Islam by the Saudi Najdi regime at the behest of its master and director, Trump, Shaitaan-in-Chief, the Saudi regime is embarking on a programme of selling itself with its kufr wares to the Ummah at large.

In pursuance of this scheme, the Saudi propaganda agency, *Rabitah*, has indicated that it will be organizing a huge merrymaking conference during the course of this year in South Africa. It is clear that the Saudi regime is out to woo South Africa Muslims to gain moral support for its villainy, *fisq and fujoor*

which are encapsulated in the *murtad*

Vision 2030.

The concern which Muslims have is not related to the infighting of the family of Saud nor to the large arrests of members the Saudi Najdi family. They all are of same ilk, the one criminal is worse than the other. The consternation of the Ummah is the kufr policy of destroying Islam in the Holy Land.

The *Rabitah* has not yet announced the date and the venue for its contemplated publicity bazaar for selling its image. It is the obligation of the Muslim community and of the Ulama in particular to dissociate from this Saudi venture and to boycott it. It is unexpected of Ulama to participate in the planned conference. Only sell-outs – those who sell the Deen for a miserable price – traitors to Islam, who will curry favour with the Saudi Najdis. It is not expected for even scholars for dollars to support this Saudi conference. The Muslim community should make it vociferously known that the Saudis should not converge on the South African Muslim community with its deceptive conference to market its wares of kufr, oppression and injustice.

The Saudi regime is increasingly becoming brazen with its Israeli relationship. Fully-fledged diplomatic ties with Israel are in the advanced stage of making. The Najdi regime has been covertly dealing with the Israelis for decades. Now it is Trump's demand that the Saudi regime should overtly embrace Israel.

Any Ulama who will support the forthcoming Saudi conference in South Africa will be the worst type of evil scholars for dollars in the Ulama-e-Soo' fraternity. Support for the Saudi regime is support for Kufr, oppression and injustice. Saudi brutality in Yemen, the imprisonment of thousands of Shaikhs and other Muslims who had dared to voice themselves against the suppression and oppression of the tyrannical Najdi regime, and the wholesale pillaging and plundering of the Shariah compel Muslims, and the Ulama in particular, to make known to the Saudi regime that there is no support for them in the Muslim community of South Africa.
