A WASTEFUL, FUTILE SHAITAANI PROGRAMME OF MISCREANT MOLVIS

Once again a useless group of molvis dubbing themselves '*Southern African Ulama Forum*', will be gathering in Zimbabwe for a merrymaking futile talk-shop which signifies nothing but *israaf (waste), riya (show)* and *takabbur (pride)*, all motivated by the evil of *Hubb-e-Jah (love for name, fame and aggrandizement)*.

The stupid grandiose meeting of these useless molvis is merely for their personal entertainment at the expense of the public's money which is being squandered to gratiate the bloated *nafs* of these characters whose conspicuous activity is *abstention from Amr Bil Ma'roof Nahy Anil Munkar*.

Their expertise is in only compromising the Haqq by striking up haraam alliances with the people of Baatil. There is no goodness and nothing constructive for the Ummah in this conference of the wayward molvis who have nothing constructive to do.

Approximately 160 molvis will be descending on Zimbabwe for the merrymaking outing which will specialize in eating and excreting – jokes, fun and sightseeing. Stupid molvis will be delivering speeches in western style to impress themselves – to delude themselves into the deception of having bestowed a great favour to the Ummah with their themes of *riya*.

At a time when the Ummah is on fire, suffering and wallowing in squalor, poverty and misery, these molvis deem it appropriate to squander about a million rand in just airfares so as to bask in a stupid act of rodomontade acquittal which is devoid of benefit for the Ummah. In fact, these morons themselves too will not derive any Deeni benefit from their themes of riya.

When millions of Muslim refugees in different parts of the world are starving, these obese molvis suffer from a satanic conscience, hence their gluttonous ingestion of sumptuous meals just to excrete the effluvium of waste. They should hang their heads in shame for their callous feelings and their shaitaani indifference towards the plight of the suffering Ummah. What has happened to their brains? Their inability to understand the evil of the waste and the futility of their congregation is the effect of disturbed mental equilibrium. Their thinking is debased and deranged, hence their hearts are like stone or harder than rock. That is why the heart-rending plight of the Ummah is so far, very far from their hearts and brains. About these squanderers who are the brothers of the shayaateen, the Qur'aan Majeed states:

“Then their hearts became hard like stone or even harder, for verily from some stones gush forth rivers, and some stones split open and water gushes therefrom, and some stones roll from heights out of fear for Allah.”

“Do not waste, for verily the wasters are the brothers of the devils, and shaitaan unto his Rabb was ungrateful.”

From whence did these molvis gain the idea of these wasteful and futile merrymaking meetings having any Islamic merit? Was this ever the *tareeqah* of the Salafus Saaliheen or of our Akaabireen? The only 'achievement' for these characters will be to pat themselves on their backs for their silly themes of *riya*. Just imagine the ludicrousness of molvis labouring for days to prepare a theme, then squandering money and time to bask in an acquittal signifying nil. This is not *aghw* (nonsense). *Amr Bil Ma'roof*. It is stupid *riya* and *I*

What has this futile 'forum' of hopeless molvis achieved from the silly conferences they have been convening since the past few years? Rasulullah (Sallallahu alayhi wasallam) said that if the heart is diseased, the whole body is diseased. The Ulama are supposed to be the 'heart' of the Ummah. But this 'heart' is rotten, thus the entire Ummah is rotten and trodden on by the kuffaar who pile on us humiliation upon humiliation. This is the era about which Rasulullah (Sallallahu alayhi wasallam) said:

"The worst of the people under the canopy of the sky will be their ulama from whom will emerge fitnah, and the fitnah will rebound on them."
